

# GROUP TOURS AT FORD HOUSE

Discover the inspiration of Ford House, where picturesque architecture surrounded by the beautiful flow of naturalist-style landscapes takes you inside the story one of America's most prominent automotive families. Offering a one-of-a-kind look into the private lives of Edsel Ford – the only son of Henry and Clara Ford – his wife Eleanor, and their children, a guided tour of their historic lakeside estate brings you into the same rooms they called home. The Fords' impeccably designed and curated home also reveals their deep love for art and design, from architecture and landscape to their impressive personal collection of art and antiques.

Conveniently located 12 miles North of downtown Detroit, just off I-94. A trip to Ford House is the perfect pairing with the rich cultural and dining destinations in and around Detroit.
